

**Organizers:**

**Victor Klimov**  
Los Alamos National Laboratory, US

**Iván Mora-Seró**  
Universitat Jaume I, ES

**Sixto Gimenez Julia**  
Universitat Jaume I, ES

[www.nanoge.org](http://www.nanoge.org)

## Invited Speakers:

Yi Cui (Stanford University, US)

Filippo De Angelis (ISTM-CNR Perugia, IT)

Gordana Dukovic (University of Colorado Boulder, US)

Todd G Deutsch (National Renewable Energy  
Laboratory Denver, US)

Jose Ramon Galan-Mascaros (Ins. of Chemical  
Research of Catalonia, ES)

Giulia Galli (University of Chicago, US)

Thomas Hamann (Michigan State University, US)

Sohee Jeong (Korea Institute of Machinery and  
Materials, SK)

Joey Luther (National Renewable Energy Laboratory  
Denver, US)

Luis Otero (Universidad Nacional de Río Cuarto, AG)

Morgan Stefik (University of South Carolina, US)

Kevin Zhenyu Yang (University of Toronto, CA)

## Topics:

Perovskites and their applications  
In photovoltaics and photochemistry

Solar fuels

Energy storage

Semiconductor quantum dots: from  
fundamentals to applications

Photoelectrochemical and  
electroluminescent devices

CO<sub>2</sub> reduction

Artificial photosynthesis

Heterogeneous catalysis
